Hyundai Creta images scanning

The folder for all the raw images is provided here:

https://drive.google.com/open?id=0By3r8_3WkB08MTU2UnkwVm9ieU0

Here are two demo images of expected output:

https://drive.google.com/open?id=0By3r8_3WkB08RIIfV04tY19OdmC

So basically you need to enter the text that is there in the title of every image in this callout as shown in the demo and there needs to be a show more button below.

Here are video links for videos 1,2,3,4 that will appear in the videos section on selecting show more.

<https://youtu.be/8Fn-i8Wd5yM>

<https://youtu.be/OpM7uW9wcZ0>

<https://youtu.be/BtQgrGppaDk>

<https://youtu.be/DxutUVNsQLU>

For call now button, make a call to this number: +91226160 6161

On pressing specs button this link must open: <https://www.cardekho.com/hyundai/hyundai-creta-specifications.htm>

All the UI specifications and the instructions have been shown in the ppt.

Keep in mind all these buttons to appear on GUI. Not on the marker. So once the marker is scanned, the description comes in a callout with the show more button below the marker.

The buttons will be uploaded in a drive and will share the link with you in a few hours.
